Mattenstrasse 26
CH-4058 Basel

The **Bioprocess Laboratory** of the **Department of Biosystems Science and Engineering (D-BSSE)** of **ETH Zurich in Basel, Switzerland**, is offering the position of a

Laboratory Technician (BTA, CTA, Laborant)

We are an international research group investigating fundamental and applied questions in the field of applied microbiology and biotechnology. Our activities involve genetic engineering, HPLC-MS, FACS, light microscopy, and lab automation. In short, we offer an interdisciplinary research environment at a top institution.

The successful candidate should be flexible in thinking, exhibit fundamental knowledge of and hands-on experience in standard molecular biology (PCR, restriction, ligation, and gel-electrophoresis) and biochemical techniques (SDS-PAGE, Western Blot, ELISA).

We are looking for a team-player with strong communication skills. We expect the candidate to work independently and handle, analyze, and present complex data sets with computational assistance (e.g. on Windows PowerPoint, Word, Excel). Additional insight into HPLC, mass spectrometry, and laboratory automation would be an advantage.

Our working language is English.

The position is initially available for two years.

The position is located in Basel. Please submit your application online at www.jobs.ethz.ch.

For further information regarding this position, please contact Johannes.haerle@bsse.ethz.ch
